# KEY RESOURCES IN SAP :

- *Functional*
- *Technical*

# CONFIGURATION

Configuration is the process of making standard software fit your business.

SAP, as an example, has:

Over 8000 configuration decisions

Data structuring

Sales divisions, distribution channels

Rewriting Code (Modifications)

Not recommended because of compatibility problems when updated versions of the software are installed.

Customization

Writing code at SAP-specified user exits

Third-party software solutions

# Who are we?

We are the only SAP provider in Jharkhand

We don't provide trainers, but real time industry experts

First and only chance for you to align with industry
